

Managing security through heavyweight processes

Security is not only about deploying products. It needs to be managed with strong processes. APARA's Managed Security Services offers you strong operational processes to manage, maintain and monitor critical infrastructure devices.

Why outsource MSS?

Securing critical information is not a one-time effort. It is the sophistication and the variety of attacks that are a cause for worry. Businesses lack dedicated internal resources, required to combat this malady. APARA through its core competencies evaluates, deploys, integrates and manages security solutions by implementing advanced countermeasures. One that not only keeps various threats at bay, but also lowers overhead costs rapidly.

What can MSS achieve?

- ▶ Evaluation and selection of products
- ▶ Managing Firewalls,VPN
- ▶ Managing Intrusion Detection
- ▶ Managing Authentication servers
- ▶ Comprehensive Security Design Services
- ▶ Intensive Security Log Consolidation

Managed Firewall Service

APARA's Managed Security Services provides outsourced and expert 24x7 monitoring of security and network devices like Firewall, Intrusion Detection & protection,VPN and many more.

A string of benefits

- ▶ Lowered costs of ownership
- ▶ Risk Transference
- ▶ Competencies for complex initiatives
- ▶ 24X7X365 service availability
- ▶ Optional ownership of security technology
- ▶ Lowered effort to manage/maintain equipment

From the leaders in Security

APARA brings security intelligence, technology understanding and best practices to the fore. And makes them work for you. At the same time identifying, correlating and prioritizing security events in more ways than one. APARA responds quickly with predetermined escalation procedures and adheres strictly to SLA. The best part is APARA provides you with experienced security consultants and an extensive coverage 24 hours a day, 7 days a week.

Delivering when it matters

Sl.No	Severity of Event	Description	Response time
1	Critical	Intrusion in progress or Just detected	30 minutes
2	Alert	Intrusion may be in progress – Further analysis required	6 hours
3	Warning	A relevant security event – Not an immediate threat	1 or 2 days
4	Information	Security related event – useful for trending data	Weekly basis
