

Disaster Recovery

Industry segment – Banking and Finance

The customer is one of India's leading financial institution

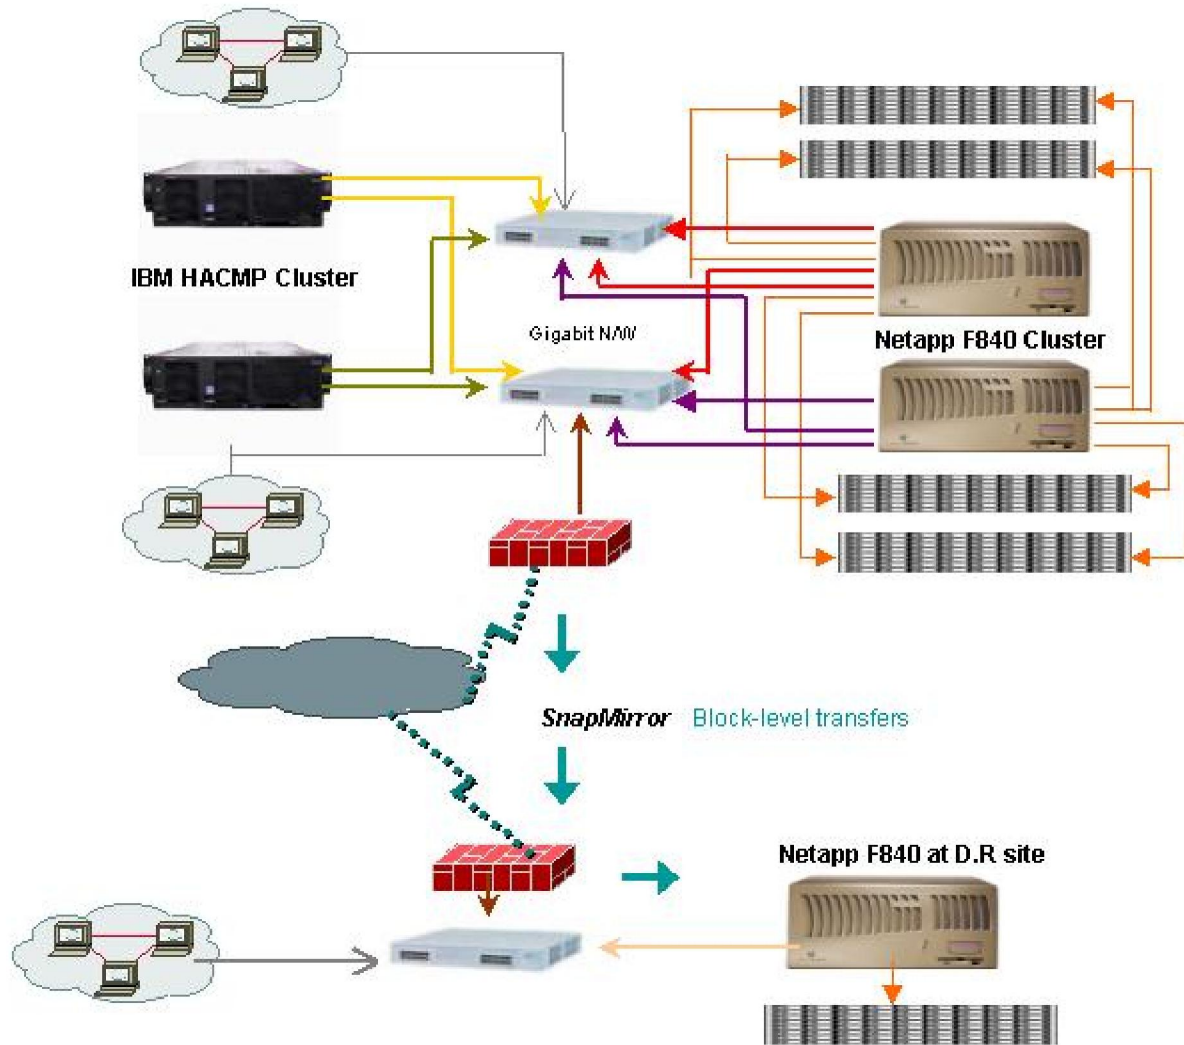

solution objectives

- **High uptime (NSPOF)**
- **Disaster Recovery with RTO of 10 minutes**
- **Server free backup**
- **Instant recovery**
- **Scalable Capacity and Performance**
- **Ease of use & Low TCO**

solution highlights

- **First NAS based core banking implementation**
- **Multiple point-in-time copies for instant recovery**
- **Disaster Recovery**
 - Block level replication over 2 Mbps link (remote)
 - Block level replication over LAN (within the same building)
- **Server free backup from the replicated database**
- **Integration with IBM HACMP**
- **Stringent SLAs met**

Storage Architecture

solution benefits

- **99.99% + uptime achieved**
- **Instant recovery with minimal overheads**
- **Quick implementation enabled faster time-to-market**
- **Two level DR ensure faster recovery**
- **Lowered TCO due to simplified Storage & DR Management**
